## **I. Pat's first Workshop: "Huna" Come meet your own Subconscious Mind. Huna --- The Secret Knowledge: The Ancient Hawaiian Philosophy for Living.**

The Power of our Life Energy field is controlled by the Subconscious Mind.

It is not Conscious control of input or output, it is automatic according to our thoughts, beliefs and memories. When we clear those beliefs and memories or change our perceptions, the connections to our High Self are whole and we can then engage our desires to bring fulfillment.

There are many areas in our lives that display proof of our understandings. What seems easy for one may be difficult for another, within the same family.

Much of our past 'karma' is encased in beliefs that we have to 'work it out' or have equal problems to bring understanding. Unlike the Christian dialogue that we need to be forgiven by God to enter into Heaven, the Kahunas of ancient times knew that the Supreme God is far greater than we can ever imagine. So, we are directly responsible for our actions and need only to know One Law, to 'Hurt no one with Hate'.

In this workshop, I desire to introduce you to your Subconscious Mind.

My studies have been with **Clearing Your Life Path, by Alan P. Lewis**. I will provide excerpts from this book, as it is no longer in print.
