## **II. Pat Delafield's Second Workshop is on the "Universal Law of Balance" this is Working with the Science of Energy.**

The greatest desire of my life has been to Know God. To know the Power that is creation Itself. No one has diverted my attention from this driving force within me, but many have tried. Dowsing, by pendulum or body response, has paved the way for me to experience energy; increasing, decreasing, starting or stopping the flow. My discoveries have brought Truth to the forefront and opened the magic of a world unknown to even my visions.

Walter Russell has been my chosen mentor. He and his wife Lao brought to light what I have 'known' in my soul to be true.

Balanced Interchange, the Cube and the Sphere, Fire and Water are the bases for exploration. Numbers, Color, Sound are the tools.

Meeting Lao Russell in 1985 in Swannanoa, VA was a pivotal point in my life. At the time, I was fearing the dark forces and laid blame on them for my continuous predisposition for accidents and life threatening events. **Lao calmly told me 'There are no two things in this Universe, there is only God. There is only Love.'** After three days, this Truth set me free and I learned God, Mind and Energy are interchangeable words.

After receiving a Facilitators Certificate for the University of Science and Philosophy in 1999, the world went flat for me. So much to learn and no one to talk to. Self-pity was not a new feeling. The more I learned the less I belonged to the world. But, life had its own path for me to follow. In the scheme of things, eighteen years is not even noticeable. Today, after testing and experimenting with what has been thrown in my path, I feel strong and fearless in light of the New World beginnings of a New Age of Aquarius.

More important than can be known, the Power of the Law of Balanced Interchange.
